

DASSY® TAMA (300545)

INSULATED JACKET

Completely new within the DASSY® range: an insulating jacket. Your perfect partner for outdoor work in transitional seasons. Fitted with a hood with a reinforced brim to prevent rain from falling on your face. An adjustable hem with elastic drawcord closure keeps the wind from getting under your jacket. Tama can also be closed off till above your chin when you put on the hood, which helps keep out cold winds as well. This jacket has a water-repellent finish and is made of 100% recycled polyester and polyamide. Seen in DASSY ViVid®.
