

DASSY® ANUBIS S3S FO SC SR ESD (25597)

LOWCUT SAFETY SHOE

Let's introduce you to the low-cut safety shoe DASSY® Anubis in the DASSY® Safety shoes range. Specially developed for construction professionals and certified in accordance with EN ISO 20345:2022. Features a wear-resistant scuff cap, an 'S' perforation midsole and a slip-resistant outsole for sufficient grip. With Plasmafeel® lining to keep your feet fresh. DASSY® Anubis is a combination of full-grain leather and polyurethane for the best durability. Reflective details and DASSY® elements complete the design. DASSY® Amon is a mid-cut model in this product family and DASSY® Seth is a waterproof high-cut shoe. Combine with DASSY® Ceres laces.
