

TECH SOFT ⁽⁰⁾

INSOLE

Tech Soft, a thermoformed, antistatic insole, is fully breathable and moisture-absorbent, which keeps your feet fresh at all times. The carbon molecules in the sole prevent unpleasant odours, while the shock-absorbing heel provides adequate comfort. Suitable for DASSY® Nox and Horus. For this insole, we collaborate with Aboutbu, our preferred Italian partner specialising in safety footwear.

Product details

- insole
- breathable
- stock article
- Aboutbu
