

DASSY® DAKOTA (400142)

FLAME RETARDANT BRACE OVERALL WITH KNEE POCKETS

The DASSY® Safety Flame Retardant workwear does not only have a flame retardant finish, but also meets all design requirements for this type of workwear. For instance, all pockets have flaps or are placed under a specific angle to prevent sparks from falling into the pockets. Moreover, all metal components (e.g. snap fastenings, zippers) are concealed, both on the outside and inside, to avoid heat transfer. These brace overalls are also available in plus and minus lengths! Please note that we currently do not have all sizes of plus and minus lengths in stock. If your size is not available, please contact our customer service for more information about the estimated delivery time.
